Inter-Pro Investigations

PRESS RELEASE

5/17/2006 6:50 PM

The suspicious death of a little boy named Gilbert Bonneau who was 8-years old when he died on November 28, 1953 at an Albany Hospital, over 52-years ago, will be investigated by Augustine Papay Jr who is a retired New York City Police Detective and a Private Investigator.

William Bonneau and his family hired Mr. Papay who is a licensed Private Investigator and a former Homicide Detective now based in Port Jervis NY, and asked him to investigate and determine the child's cause of death, while Gilbert was under the care and custody of St. Colman's Home for Children, a Catholic orphanage and home for children operated by the Sisters of The Presentation in WATERVLIET NY.

The Bonneau family has been fighting a 28-year battle in trying to seek the truth from the Catholic Church about Gilbert's death, amid allegations by various witnesses who came forward and claimed that Gilbert was first beaten with a stick then he was smothered with a pillow by an unidentified Nun who was watching over him while the child was continuously crying in the home's infirmary.

Mr. Papay stated that he will start his investigation by reviewing the Gilbert Bonneau case files and by interviewing eye witnesses who made claims of physical and sexual abuse that allegedly took place at St. Colman's around the time when Gilbert Bonneau died there. Mr. Papay is also appealing to the public and all former St. Coleman's residents to come forward with any information by calling him at Inter-Pro Investigations @ 1-866-533-5099 or e-mail him: papay@frontiernet.net
